

THE VICINITY
GREENWALL SYSTEM
FEATURES AND BENEFITS

VICINITY

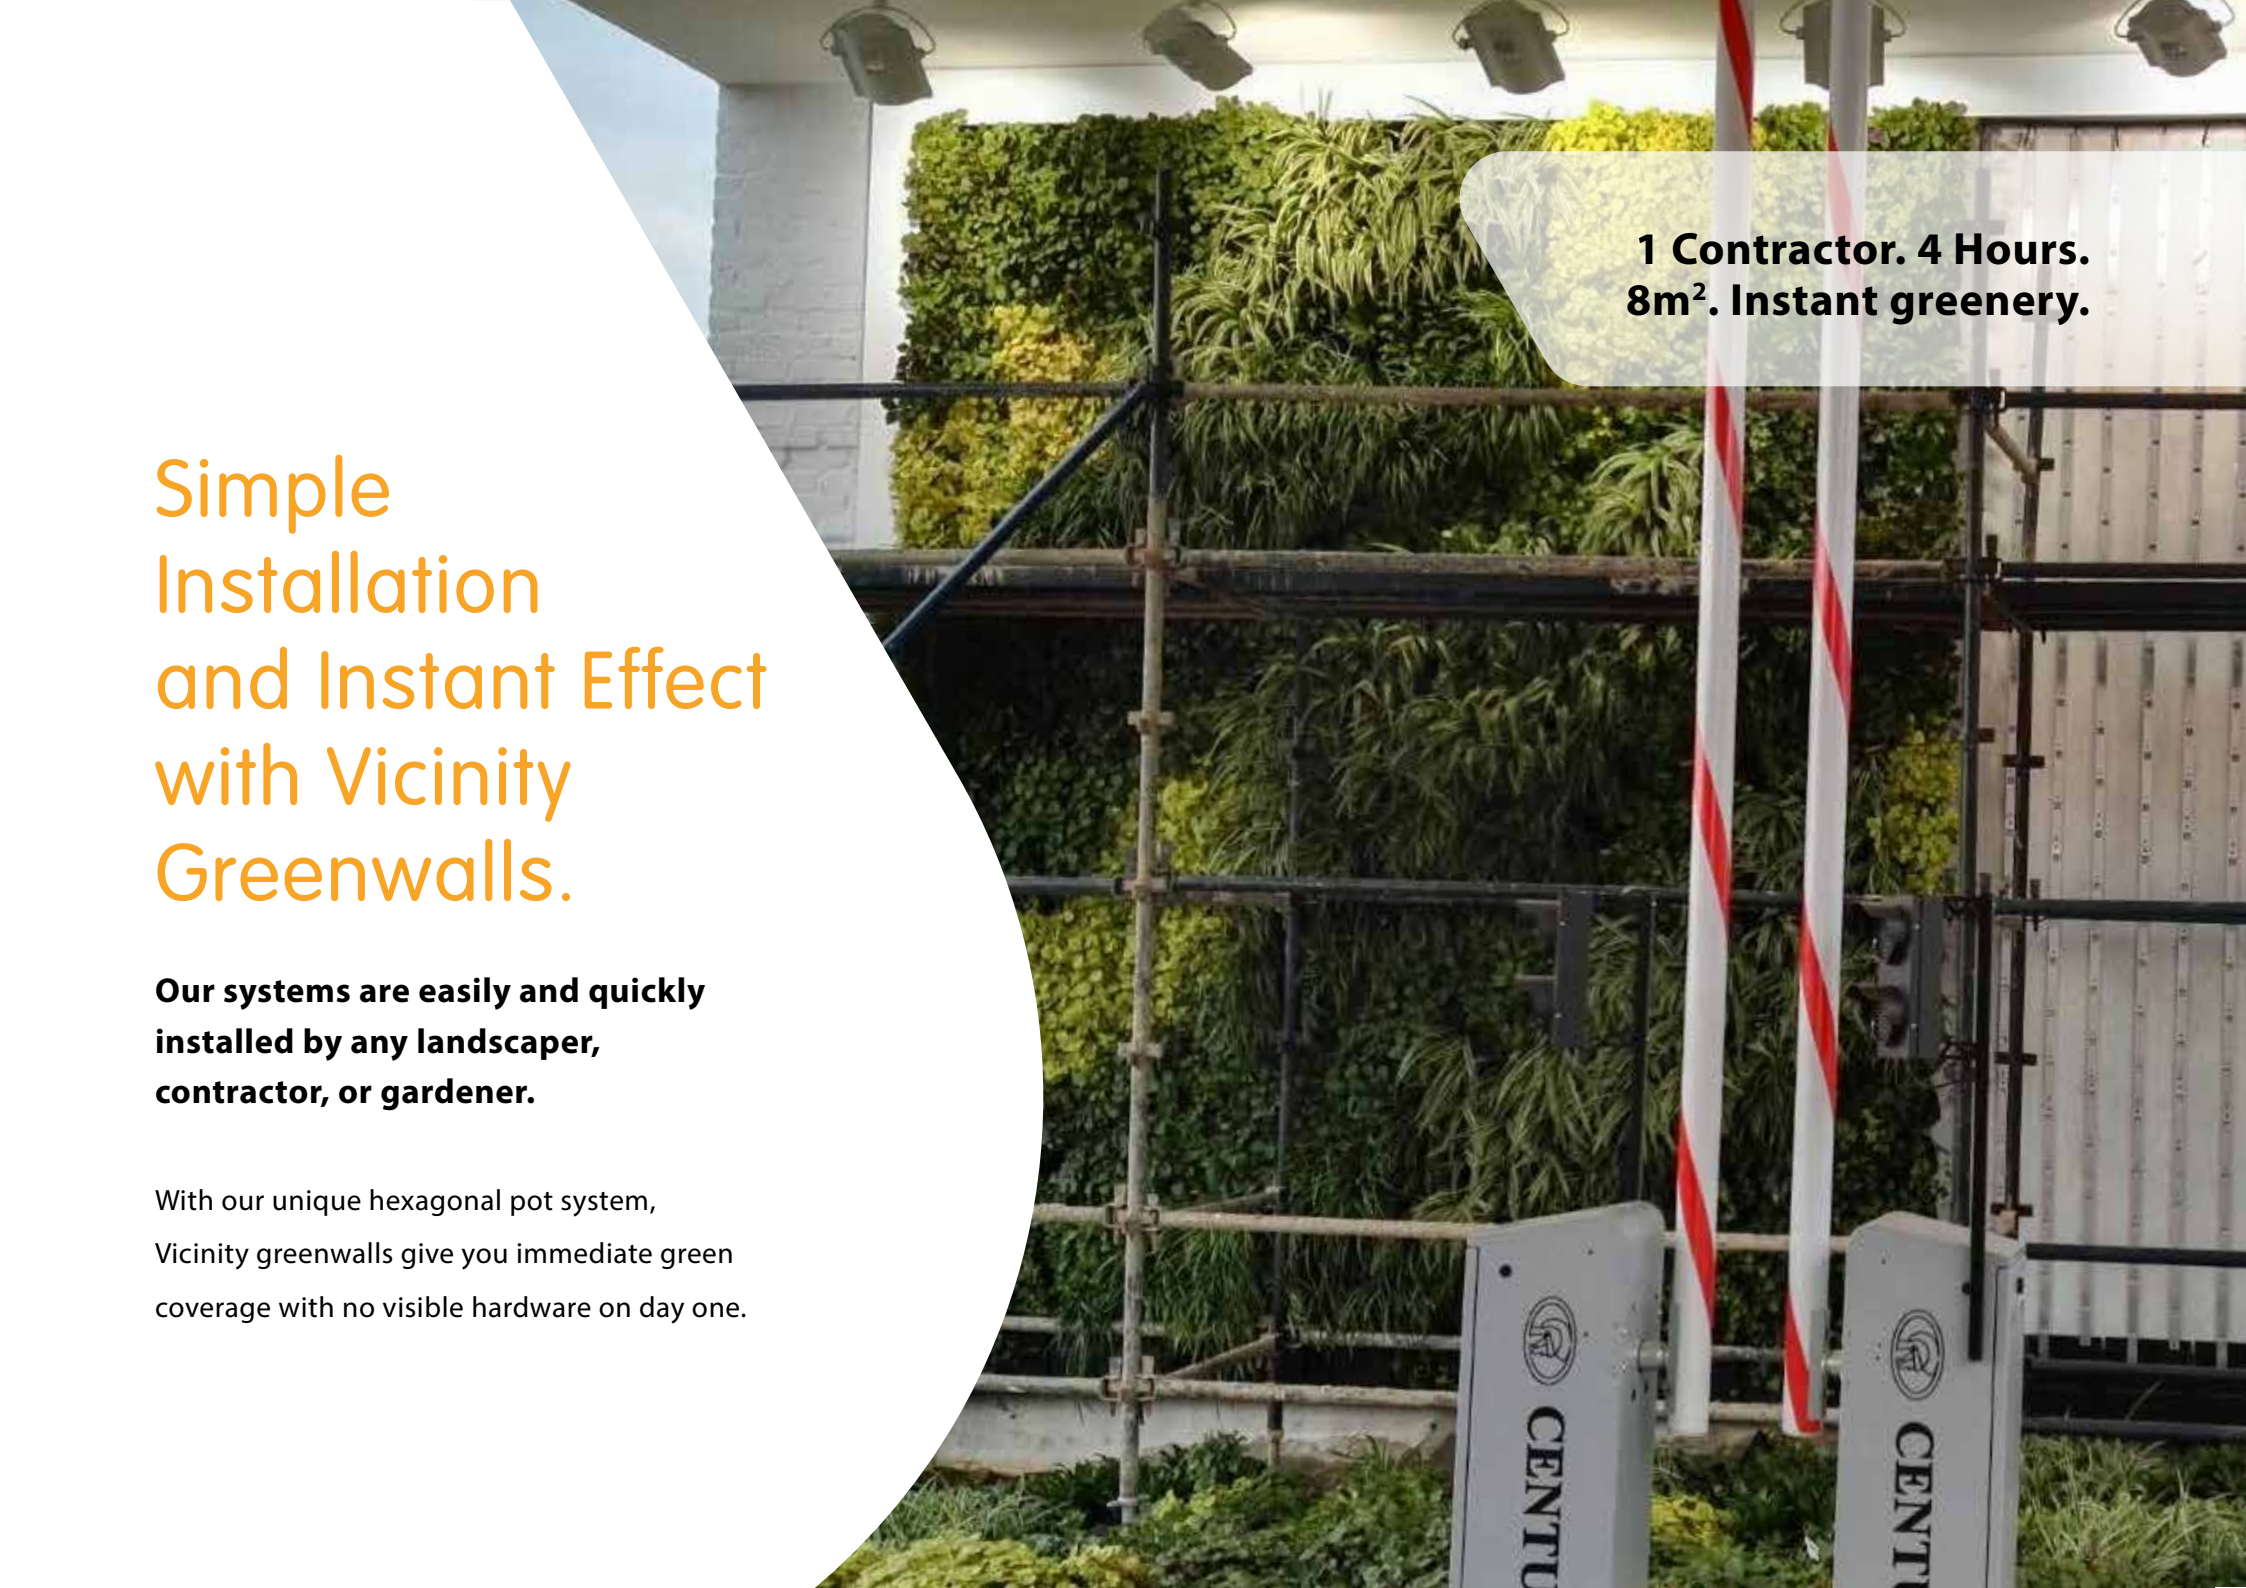

Three systems, one smart design

Vicinity has engineered three efficient systems into one smart design to give you a fully-inclusive universal solution to your greenwall requirements.

We are the only greenwall manufacturer to provide you with comprehensive greenwall kits, removing any need for custom building with separate components.

**THREE INTEGRATED SYSTEMS.
ONE COMPLETE SOLUTION.**

Simple Installation and Instant Effect with Vicinity Greenwalls.

Our systems are easily and quickly installed by any landscaper, contractor, or gardener.

With our unique hexagonal pot system, Vicinity greenwalls give you immediate green coverage with no visible hardware on day one.

**1 Contractor. 4 Hours.
8m². Instant greenery.**

SOIL-BASED GROWING: AS SIMPLE AS A POT PLANT

Vicinity greenwalls essentially create a simple network of 'pot plants' in a vertical garden.

- No hydroponics required
- Simple plant management
- Low-maintenance

PERFECT FILL. PERFECT FIT.
PERFECT EFFECT.

Lush Vicinity Greenwalls with Mature Plants

Seedlings are not a necessity for the Vicinity system to be effective. Our hexagonal pot design allows for a large soil volume, so more mature plants can be used for fuller effect.

All plants in this system have the benefit of space for healthy root development, keeping your greenwall lush and vibrant for much, much longer.

Off-Site Planting with Vicinity's Greenwall System

Pre-plant the Vicinity greenwall pots at the nursery and reduce your on-site demands:

- No additional labour required
- No mess
- No drop sheets or extensive clean-up required

PRE-PLANTED POTS ARE CONVENIENT,
CLEAN, AND EASY TO INSTALL

CLIP-ON, CLIP-OFF: MAINTAIN THE PERFECT VICINITY GREENWALL EFFECT

The simple clip in and out pots are easily swapped, so changing the wall's design or replacing plants is a quick, painless task.

- No complicated panel replacement
- Simple plant identification and removal
- New plants fill the space immediately

INTEGRATED WATER TANKS

Vicinity's modular, integrated water tanks allow simple scalability of your greenwall. Use as many tanks as you require in your available space without compromising on the system integrity.

The tanks provide built-in water storage and water capture that keeps the system drip-free and creates a water-wise growing solution.

- No custom tanks or gutters required
- Self-contained
- Efficient

Integrated Irrigation & Water Filtration

Vicinity's plug and play irrigation systems are designed and engineered specifically for the Vicinity greenwall system.

This gives you a number of cost - an time - saving benefits:

- No external irrigation specialists required
- No outstanding components for a full-functional system
- Simple assembly of a proven solution

The Vicinity irrigation system is completely scalable from 2m² to 60m² and can be installed by one person.
